

Traditional Private Funding

Oxley and Coward family department consists of 5 fee earners who charge by the hour for any advice provided. The hourly rate depends on the level of experience of the solicitor or paralegal instructed.

If you choose to instruct us, we do offer various funding options – please see the funding leaflets A – E on our website.

Our traditional private funding is where we deal with everything on your behalf – advising you, dealing with paperwork, forms, phone calls and application forms.

Your costs will be based upon the amount of time spent dealing with your matter. We operate a time recording system which records all time spent working on your file and from this we prepare your bill on a monthly basis.
